

3rd ETS newsletter: Farewell 2020 and looking ahead optimistically

Dear readers and followers of the ETS project,

The year 2020 will lay behind us soon and we are all looking forward to our well-deserved winter holidays. It was a year that none of us had expected and that challenged, as well as changed the world. Nevertheless, we are happy that our project managed to succeed and to take important steps and activities. You will find articles on two of these steps in the enclosed newsletter:

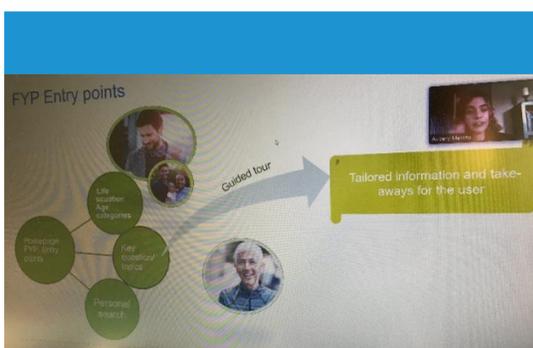

A follow-up workshop on pension communication, moderated by Lisa Brüggem, and the report on the results of our 2019 survey on the state of play of national tracking services.

We take the opportunity to thank you all for your interest and participation in the ETS project, and look forward to our future exchange in the year 2021.

Wishing you a wonderful festive season and our best wishes, especially health and happiness for the New Year.

Your ETS Team
